Comprehensive Industrial Solutions

INTRODUCTION

Orient Equipment & Services (OES) is a service arm of Orient Hardware & Tools Corporation (Orimart) a 65 year old Industrial House of Engineering Tools and Equipment. This facility was established in 1992 for servicing portable power tools in a 400 sq ft workshop with a single technician. Today it has grown as an Authorized Service Center for all the major power tools in a 6000 sq ft workshop area and 2000 sq ft of Tools & Hardware Showroom.

STRENGTH

Our strong motivated team is our strength. Their contribution in the field of sales, service and calibration has helped us to achieve sustained growth and also command a remarkable faith and goodwill with our customers. In our workshop we have individual departments, specially for Electric Tools, Pneumatic Tools, Measuring Instruments, Hydraulic Equipment, Machinery, Electrical & Electronics, etc.

OUR CUSTOMERS

We thank our 1500 plus dedicated customers who found faith in us. Our customers range from Aero Space, Transport Organizations, Sugar Mills, Automobile Industries, Foundries, Cement Factories, Engineering Industries, Wind Mill Manufacturers and Service Providers, Textile Mills, Railways, Defence, Power Plants, etc. The list is rapidly growing and so is our strong commitment to them.
